Customer Credit and Payment Terms

Document HPD-FIN-003, version 2.1, effective 2026-01-01.

1. Scope

This document sets the payment terms, credit limits and late-payment rules for all Helix customers. Finance applies it to every invoice issued from the effective date.

2. Payment terms by customer type

The payment term is counted in calendar days from the invoice date.

- Pharmacies: 30 days.
- Clinics: 45 days.
- Hospitals: 60 days. Public hospitals may receive 90 days with written approval of the Chief Financial Officer.

3. Credit limits

Each customer receives a credit limit when the account is opened, based on three months of expected purchases. The limit is stored in the customer master data (the credit_limit field) and reviewed every 6 months. A customer can request a higher limit through its account manager; increases above 20% need approval from the Finance Manager.

4. Early payment discount

Customers who pay an invoice in full within 10 days of the invoice date receive a 2% discount on that invoice, deducted from the next invoice.

5. Late payment

An invoice that is not paid by the end of its payment term is overdue. Overdue invoices incur a late-payment fee of 1.5% of the overdue amount for each month, or part of a month, that the invoice remains unpaid.

6. Credit hold

An account is placed on credit hold, and new orders are not shipped, when any invoice is more than 90 days overdue or when the open balance exceeds the credit limit by more than 10%. The hold is lifted as soon as the overdue amount is paid. Orders for recalled-product replacements are shipped even during a credit hold.

7. Invoice disputes

Disputes about an invoice must be raised within 15 days of the invoice date. The disputed amount does not count as overdue while Finance investigates.
